RISK MATRIX					
Probability	Severity				
	5-Catastrophic	4 Critical	3 Major	2 Minor	1 Negligible
5-Frequent	25	20	15	10	5
4-Occasional	20	16	12	8	4
3-Remote	15	12	9	6	3
2-Improbable	10	8	6	4	2
1-Extremely Improbable	5	4	3	2	1

Probability/Likelihood	Definition	Value
Frequent	Likely to occur many times Has occurred frequently	5
Occasional	Likely to occur sometimes Has occurred infrequently	4
Remote	Unlikely to occur, but possible Has occurred rarely	3
Improbable	Very unlikely to occur Not known to have occurred	2
Extremely Improbable	Almost inconceivable that event will happen	1

Severity	Definition	Value
Catastrophic	Fatality or disabling injury	5
Critical/Hazardous	Serious injury/illness or Dangerous Occurrence (Refer to Riddor Guidance)	4
Major	"3-Day" injury or illness	3
Minor	Minor injury or illness (first-aid only)	2
Negligible	No injury accident or incident	1

Venue: Brands Hatch (Indy Circuit)		Event: Championship Motor Cycle Races and test day. NG Road Racing Club
ACU Permit No: ACU 60161 (16/04/2021) ACU 60162 17-18/04/2021	Date: 16 – 18/04/2021	Risk Assessment carried out by: S Bostock (NG Road Racing) April 2021

HAZARDS ASSOCIATED WITH ACU PERMITTED EVENTS TAKING PLACE DURING THE COVID-19 CRISIS. UPDATED RISK ASSESSMENT EFFECTIVE AS AT 29th March 2021

SAFETY ASSESSMENT STATEMENT

1. This Risk Assessment has been produced which outlines hazards associated with motorcycle sport events taking place in a Covid-19 environment following the proposed easing of restrictions as part of the Roadmap announced by the Prime Minister on 22nd February 2021.
2. The Risk Assessment takes into consideration hazards to competitors/officials/marshals/teams/mechanics/families/spectators in a period following 29th March when Stage One of the Roadmap comes into force. It should be noted that following the latest UK Government advice, planned stages of the Roadmap may be moved dependent on the data available to the UK Government who will make decisions based on the data available and not dates to maintain a cautious approach to the easing of lockdown restrictions which are hoped to be irreversible, ie. Lockdown 3 is hoped to be the last lockdown, but further lockdowns cannot be ruled out altogether if other variants of the virus emerges and it is proven the Covid-19 vaccines that have been approved are not effective.
3. The Risk Assessment allows for motorcycle sport events to take place in a responsible, controlled, and safe manner, but at all times taking into consideration government advice/guidance published or issued at any time.
4. Government Advice / guidance will take precedent and will always be followed by ACU Ltd.
5. Organising Clubs also need to be mindful of and follow the guidance / advice issued by devolved Governments and Crown Dependencies such as the Isle of Man / Channel Islands.
6. Organising Clubs need to be mindful of certain areas/premises where the risks of transmission may be higher and as such put in place control measures appropriate to the area.
7. Organising Clubs may wish to adopt this risk assessment as their own and in doing so may add additional measures to suit local needs. If using this risk assessment, an Organising Club accepts responsibility for its content and accepts the control measures that have been identified.
8. As the initial assessed level of risk has reduced, so the residual level of risk has been re-assessed as a result of recommended control measures to be put in place considered to be suitable and sufficient and to adopt a position of as low as is reasonably practicable in terms of the control measures put in place to mitigate the risk.

RISK ASSESSMENT

Given the global spread of Coronavirus, consideration has to be given to what will be the 'new normal'. It is clear that the way motorcycle sport events were conducted prior to Covid-19 will not be possible for some time to come. Consideration has therefore been given to the following:

Implementation of Covid-19 Policy at Events. The responsibility for the implementation and if required the adaptation of the Covid-19 policy at events rests with the Clerk of the Course and the Chief Medical Officer with the Chief Medical Officer making any final decisions as necessary.

NHS Vaccine. The very successful NHS Vaccine programme continues at a pace and provides a significant control measure in mitigation of the risk against Covid-19. As such the NHS Vaccine programme features as a key control measure in the detailed risk assessment outlined below. A very large proportion of Marshals and Officials who sign on at an event fall in the Groups 1-6 of the vaccine rollout and will have already received the vaccine. That coupled with those who have anti-bodies from having contracted the virus suggests a significant proportion of the Road Race community will already have protection.

Travel to/from the Circuit/Venue. Travel to and from the circuit/venue will be dependent on current UK Government advice / guidance in place at the time. On current planning the rule of six will come into force on 29th March and also the mixing of two households, so members of two different households may travel in the same vehicle. Competitors / Officials or someone in their household or support bubble showing coronavirus symptoms, everyone in that household / support bubble should stay at home. If a competitor / official or a member of the household or support bubble are contacted as part of the test and trace programme, the individual contacted should stay at home. If that individual becomes symptomatic, everyone in the support bubble must self-isolate and stay at home.

Signage. Signage should be displayed prominently at the venue in obvious locations where persons are likely to congregate to emphasise any social distancing measures that may be in place in accordance with UK Government advice/guidance issued.

Accommodation at / around the Circuit/Venue. Overnight stays at a circuit / camping and/or overnight stays at local Hotels / B&Bs / other accommodation will not be allowed until 12th April provided the data allows Stage 2 to progress from that date. From 29th March until at least 12th April all ACU permitted events will be restricted to one day only thereby negating the requirement for overnight stays during this period.

Signing On. Signing on should take place in accordance with any social distance measures in place at the time of the event taking place. Circuit Owners / Venues should provide additional protection for Race Office personnel by providing transparent Perspex shields as seen at Supermarkets in front of Cashiers. Race Office staff may also consider the use of face coverings if they wish to do so. A wet signature is not required at Signing On. A process is put in place which allows Race Administration staff to verbally ask each competitor if they agree to the standard declaration (*which could be posted in large letter format on the counter*) and then tick a box next to that competitor's name on the Signing On sheet. It is important that more than one person witnesses the individual agreeing to the standard declaration. Alternatively, if Organisers want to sign on competitors in the normal manner, then they should make provision to obtain disposable pens for competitors to sign on or ensure competitors are aware that they are required to bring a pen with them to sign on at the Race Office. Individual slips of paper (complimentary slip size) will be required to be signed by each individual to state the competitor agrees with the requisite declarations as defined on the Entry Form for the event. The slips of paper are then deposited into a box which is to be sealed once Signing On is complete. The box is to remain sealed for a period of four days which will be enough time for any traces of Coronavirus to be eradicated. Race Office staff are not to handle the competitors' licence. Riders should hold the licence sufficiently for the Race Office staff to be able to view the photograph and turn the licence on the flip side so the Race Office staff can view the reverse of the licence.

Technical Inspection. NG Road Racing may issue a separate Technical Inspection instruction sheet which will replace this generic instruction:

Machines/clothing/helmets etc to be placed in a designated area as indicated by the Technical Official, the competitor then steps away to a safe distance to allow the Technical Official to carry out the inspection. Technical Officials to wear face masks if they wish. Competitors should also wipe their clothing/helmets with a disinfectant wipe/cloth before taking their kit for Technical Inspection. Signing of the necessary declarations as per the measures outlined above for Signing On. It is important that existing protocols relating to stickers being placed on the machine to notify the machine has passed through Technical Inspection remains for several reasons. A suggestion is as follows, this can be adapted to suit individual Club needs, but the principle remains the same:

Each official gets a sheet of stickers (nobody else touches that sheet). That same official checks the bike on its stand and when he is happy puts the sticker on the bike and signs the card.

The sticker gets a quick wipe with an anti-bacterial wipe and the rider gets his/her clothing inspected and the process is repeated for the helmet. The card is signed, wiped clean and the rider picks it up from the table.

At signing on, the rider shows both sides of the card to the Race Admin team and when they are happy the rider puts it in the box.

Race Admin Team ask the rider if he/she understands and accepts the conditions on the Sign On form and ticks the box alongside their name on the Signing On sheet.

Practice Permit is wiped and placed on the table for the rider to present at the assembly Area. At the Assembly Area the rider shows the card (as proof that they have gone through all processes) and puts the card in another box.

Neither box of cards needs to be touched by anyone unless the Technical Card is required after a serious incident. Filing and collating can be done after the 72 hour lifespan on paper of the virus has expired. If that happens, one person with protective gloves can go through the cards and select the correct Tech Card for the file.

Parc Ferme. Parc Ferme can be operated post-race with machines positioned to allow for any social distancing measures in place at the time of the event taking place. Access/egress to Parc Ferme should consider any social distancing measures in place and if necessary may have to be manually policed allowing competitors / mechanics in to collect bikes observing social distancing measures. This is dependent on the area allocated to a Parc Ferme and should be considered on a venue by venue basis. Alternatively, Parc Ferme conditions could be taken away and Technical Officials inspect the top three of each race in the Technical Bay and call any other machines for a post-race inspection from the finishers at the discretion of the Chief Technical Officer.

Garages. Allocation of garage space is the responsibility of Race Organisers. Garage space can be different in size dependent on venue, so Organisers should allocate competitors to garage space taking into consideration at all times existing Social Distancing measures as dictated by the UK Government. A garage booking system will be introduced for the 2021 season. Details to follow via www.ngroadracing.org. This will allow the element of control needed to manage these Covid conditions and number of personnel in and around the garage areas.

Rule of Six. Steps one and two of the Roadmap dictates group sizes of a maximum of six / two households may meet. Components of the Race Organisation should be grouped in groups of six and the Clerk of the Course /Deputy Clerk of the Course cross all bubbles if required to do so maintaining social distancing requirements and all individuals wearing face coverings. This particular control measure has been discussed with Public Health England and considered as suitable and sufficient.

Rider Briefings. Rider briefings should be avoided where possible and information conveyed electronically / social media and by Final Instructions. However, it may be necessary to speak to all riders for a particular reason and if this is the case, then communications should be conveyed by the Venue Tannoy system / by loudspeaker or if neither of those are possible by the Rule of Six outlined above. An on-line video will be broadcast via the NG Road Racing Facebook page during the week leading up to the event. Riders, Teams, officials, helpers should view the video briefing either live or later but in all cases prior to attending the event. Competitors who do not view the video will be required to attend a socially distanced briefing at the event. Time and place TBC.

Marshals. Each Marshal point must observe the rule of six at events commencing after 29th March up to at least 17th May when group sizes may be extended to groups of 30 dependent on UK Government advice. Marshals should be given suitable PPE (face masks / gloves) which is to be utilised when dealing with an incident. Face masks should be worn at all times whilst on duty at the Marshal point. Hand Sanitizers/hand gel to be made available at each Marshal point. Organisers should always ensure that Marshals are conscious of and satisfied with their own safety.

Medics. As above with the Marshals, Medics will need to observe the Rule of Six and observe social distancing measures. They will be required to wear face masks whilst on duty and be equipped with and wear PPE (face masks / visors / gloves) to deal with any incident on track they may be called to attend.

On Track Activity. From 29th March, Start Line Officials to observe the Rule of Six, to observe social distancing measures and to wear face masks.

Race Control Staff. From 29th March, to observe the Rule of Six and to observe social distancing measures to wear face masks. Race Control to be well ventilated to allow for fresh air to circulate. Visitors to Race Control should be kept to a minimum or as required through operational necessity, the Rule of Six to be observed at all times. Visitors to Race Control should wear face coverings and be required to sanitise hands before entry.

Podium presentations. Podium presentations may take place. All personnel are to observe social distancing measures, wear face masks and the rule of six is to be observed at all times. There is to be no hugging, no shaking of hands, no physical contact.

Food Outlets. In accordance with UK Government Advice/Guidance, Venue / Circuit owners may wish to make the necessary arrangements to safely operate on-site catering facilities. Likewise, Venue/Circuit Owners may want to invite external food outlets onto their premises. It is recommended that the Vendor provides a risk assessment to the Venue/Circuit Owner to demonstrate he is operating in accordance with up to date government regulations.

Washroom / Toilets. Signage should be displayed to emphasise control measures in place regarding washroom / toilet facilities. Entrance to washroom / toilet facilities may be monitored to allow for any social distancing measures in place at any time.

ACU Competition Licence. Every rider wanting to compete in ACU permitted competition requires an annual ACU competition licence and as such needs to apply for a licence using the relevant ACU Competition licence form. For Road Racing, a competitor is required to undertake an eyesight test every three years. When completing the competition licence form, the rider must complete Section 3 – Medical Information. In this section, the rider should declare any ongoing medical issues. In doing so, the rider may well then be required to seek a Medical Report from a Doctor. Any competitor over the age of 70 needs to see a Doctor to obtain a Medical Report. In light of Covid-19, for the time-being and provided there is no change in medical circumstances, a medical report submitted in 2020 will remain extant for 2021. It is the responsibility of the rider to inform the ACU if there has been any change in medical circumstances and will be required to confirm there has been no change in medical circumstances before an ACU Licence is issued.

Sidecar Crews. Sidecar drivers and passengers can be parked adjacent to each other but must adhere to social distancing measures in place. Sidecar drivers and passengers must adhere to the Rule of Six / mixing of two households rule and wear face masks at all times.

Use of Equipment / Tools. Tools and other accessories should not be shared between individuals / teams / mechanics.
