RISK MATRIX					
Probability	Severity				
	5-Catastrophic	4 Critical	3 Major	2 Minor	1 Negligible
5-Frequent	25	20	15	10	5
4-Occasional	20	16	12	8	4
3-Remote	15	12	9	6	3
2-Improbable	10	8	6	4	2
1-Extremely Improbable	5	4	3	2	1

Probability/Likelihood	Definition	Value
Frequent	Likely to occur many times Has occurred frequently	5
Occasional	Likely to occur sometimes Has occurred infrequently	4
Remote	Unlikely to occur, but possible Has occurred rarely	3
Improbable	Very unlikely to occur Not known to have occurred	2
Extremely Improbable	Almost inconceivable that event will happen	1

Severity	Definition	Value
Catastrophic	Fatality or disabling injury	5
Critical/Hazardous	Serious injury/illness or Dangerous Occurrence (Refer to Riddor Guidance)	4
Major	"3-Day" injury or illness	3
Minor	Minor injury or illness (first-aid only)	2
Negligible	No injury accident or incident	1

<b>Venue: CASTLE COMBE</b>		<b>Event: Circuit Motor Cycle Road Races</b>
<b>ACU Permit No: 60181 AND 60183</b>	<b>Date: 4<sup>TH</sup> TO 6<sup>TH</sup> June 2021</b>	<b>Risk Assessment carried out by: S Bostock</b>

## HAZARDS ASSOCIATED WITH ACU PERMITTED EVENTS TAKING PLACE DURING THE COVID-19 PANDEMIC.

### SAFETY ASSESSMENT STATEMENT

1. This Risk Assessment has been produced which outlines hazards associated with motorcycle sport events taking place in a Covid-19 environment following the proposed easing of restrictions as part of the Roadmap announced by the Prime Minister on 22<sup>nd</sup> February 2021. The Assessment specifically looks at mitigating the risk in line with Step 3 of the Roadmap.
2. The Risk Assessment takes into consideration hazards to competitors/officials/marshals/teams/mechanics/families/spectators in a period following 17<sup>th</sup> May when Stage Three of the Roadmap comes into force. It should be noted that following the latest UK Government advice, planned stages of the Roadmap may be moved dependent on the data available to the UK Government who will make decisions based on the data available and not dates to maintain a cautious approach to the easing of lockdown restrictions which are hoped to be irreversible.
3. The Risk Assessment allows for motorcycle sport events to take place in a responsible, controlled, and safe manner, but at all times taking into consideration government advice/guidance published or issued at any time.
4. Government Advice / guidance will take precedent and will always be followed by ACU Ltd.
5. Organising Clubs also need to be mindful of and follow the guidance / advice issued by devolved Governments and Crown Dependencies such as the Isle of Man / Channel Islands.
6. Organising Clubs need to be mindful of certain areas/premises where the risks of transmission may be higher and as such put in place control measures appropriate to the area.
7. Organising Clubs may wish to adopt this risk assessment as their own and in doing so may add additional measures to suit local needs. If using this risk assessment, an Organising Club accepts responsibility for its content and accepts the control measures that have been identified.
8. As the initial assessed level of risk has reduced, so the residual level of risk has been re-assessed as a result of recommended control measures to be put in place considered to be suitable and sufficient and to adopt a position of as low as is reasonably practicable in terms of the control measures put in place to mitigate the risk.

### RISK ASSESSMENT

As the UK eases gently out of the recent Lockdown, there is a continued risk of infection if the mitigating control measures outlined in the Roadmap are not considered. Consideration has therefore been given to the following:

**Implementation of Covid-19 Policy at Events.** The responsibility for the implementation and if required the adaptation of the Covid-19 policy at events rests with the Clerk of the Course and the Chief Medical Officer with the Chief Medical Officer making any final decisions as necessary.

**NHS Vaccine.** The very successful NHS Vaccine programme continues at a pace and provides a significant control measure in mitigation of the risk against Covid-19. As such the NHS Vaccine programme features as a key control measure in the detailed risk assessment outlined below. A very large proportion of Marshals and Officials who sign on at an event will have already received at least their first vaccine. That coupled with those who have anti-bodies from having contracted the virus suggests a significant proportion of the Road Race community will already have protection.

**Travel to/from the Circuit/Venue.** Travel to and from the circuit/venue should conform to UK Government advice / guidance in place at the time. People from a household or support bubble can travel together in a vehicle. Face coverings should be worn in a confined space where social distancing isn't possible and where individuals will come into contact with people outside of their household or support bubble. Car sharing is not permitted with someone outside of a household or support bubble. Competitors / Officials or someone in their household or support bubble showing coronavirus symptoms, everyone in that household / support bubble should stay at home. If a competitor / official or a member of the household or support bubble are contacted as part of the test and trace programme, the individual contacted should stay at home. If that individual becomes symptomatic, everyone in the support bubble must self-isolate and stay at home.

**Signage.** Signage should be displayed prominently at the venue in obvious locations where persons are likely to congregate to emphasise any social distancing measures that may be in place in accordance with UK Government advice/guidance issued.

**Accommodation at / around the Circuit/Venue.** Overnight stays in self-contained accommodation at Circuits and domestic overnight accommodation in Hotels is permissible. People from the same household or support bubble should only be accommodated together.

**Event Duration.** Event Organisers may hold two (or more) day events.

**Face Coverings.** Face coverings should be worn where social distancing is acknowledged to be difficult and wherever interaction between people not from the same household or support bubble is likely to occur.

**Signing On.** Signing on should take place in accordance with any social distance measures in place at the time of the event taking place. Circuit Owners / Venues should provide additional protection for Race Office personnel by providing transparent Perspex shields as seen at Supermarkets in front of Cashiers. Race Office staff may also consider the use of face coverings if they wish to do so. A wet signature is not required at Signing On. A process is put in place which allows Race Administration staff to verbally ask each competitor if they agree to the standard declaration (*which could be posted in large letter format on the counter*) and then tick a box next to that competitor's name on the Signing On sheet. It is important that more than one person witnesses the individual agreeing to the standard declaration. Alternatively, if Organisers want to sign on competitors in the normal manner, then they should make provision to obtain disposable pens for competitors to sign on or ensure competitors are aware that they are required to bring a pen with them to sign on at the Race Office. Individual slips of paper (complimentary slip size) will be required to be signed by each individual to state the competitor agrees with the requisite declarations as defined on the Entry Form for the event. The slips of paper are then deposited into a box which is to be sealed once Signing On is complete. The box is to remain sealed for a period of four days which will be enough time for any traces of Coronavirus to be eradicated. Race Office staff are not to handle the competitors' licence. Riders should hold the licence sufficiently for the Race Office staff to be able to view the photograph and turn the licence on the flip side so the Race Office staff can view the reverse of the licence.

**Technical Inspection.** Machines/clothing/helmets etc to be placed in a designated area as indicated by the Technical Official, the competitor then steps away to a safe distance to allow the Technical Official to carry out the inspection. Technical Officials to wear face masks if they wish. Competitors should also wipe their clothing/helmets with a disinfectant wipe/cloth before taking their kit for Technical Inspection. Signing of the necessary declarations as per the measures outlined above for Signing On. It is important that existing protocols relating to stickers being placed on the machine to notify the machine has passed through Technical Inspection remains for several reasons. A suggestion is as follows, this can be adapted to suit individual Club needs, but the principle remains the same:

Each Technical Official gets a sheet of stickers (nobody else touches that sheet), the same Official checks the bike on its stand and when he is happy puts the sticker on the bike and signs the card. The sticker gets a quick wipe with an anti-bacterial wipe and the rider gets his/her clothing inspected and the process is repeated for the helmet. The card is signed, wiped clean and the rider picks it up from the table. At signing on, the rider shows both sides of the card to the Race Admin team and when they are happy the rider puts it in the box. Race Admin Team ask the rider if he/she understands and accepts the conditions on the Sign On form and ticks the box alongside their name on the Signing On sheet.

Practice Permit is wiped and placed on the table for the rider to present at the assembly Area. At the Assembly Area the rider shows the card (as proof that they have gone through all processes) and puts the card in another box. Neither box of cards needs to be touched by anyone unless the Technical Card is required after a serious incident. Filing and collating can be done after the 72 hour lifespan on paper of the virus has expired. If that happens, one person with protective gloves can go through the cards and select the correct Tech Card for the file.

**Parc Ferme.** Parc Ferme can be operated post-race with machines positioned to allow for any social distancing measures in place at the time of the event taking place. Access/egress to Parc Ferme should consider any social distancing measures in place and if necessary may have to be manually policed allowing competitors / mechanics in to collect bikes observing social distancing measures. This is dependent on the area allocated to a Parc Ferme and should be considered on a venue by venue basis. Alternatively, Parc Ferme conditions could be taken away and Technical Officials inspect the top three of each race in the Technical Bay and call any other machines for a post-race inspection from the finishers at the discretion of the Chief Technical Officer.

**Garages.** Allocation of garage space is the responsibility of Race Organisers. Garage space can be different in size dependent on venue, however, to be consistent and in accordance with UK Government guidance relating to two households, garage space will be allocated to a maximum of two competitors with their associated households / support bubbles.

**Group Size.** Step three of the Roadmap states that there is a 30 person limit outdoors. Components of the Race Organisation should be grouped in groups of thirty and the Clerk of the Course /Deputy Clerk of the Course cross all bubbles if required to do so maintaining social distancing requirements and all individuals wearing face coverings. This particular control measure has been discussed with Public Health England and considered as suitable and sufficient.

**Competitors from outside the UK.** Should a competitor from outside the UK wish to participate in an ACU affiliated club event, they will need to apply to the ACU for a letter of Exemption for Elite sports / ancillary workers provided they have Elite sportsman status. Prior to entering the UK, the individual will need to have a Covid-19 test within three days of travel and for that test to be negative, the test result must be shown in English. The individual will also need to complete an online passenger locator form 48 hours prior to his arrival in the UK. A competitor or resident who is not British cannot travel to the UK from a country on the 'red list'. If the elite sportsman / ancillary worker is participating / attending a non-elite sport event (UK Club Road Racing), the individual will still be required to self-isolate for the period outlined by UK Government rules. An elite sportsperson/ancillary worker attending an elite sport event (eg. BSB), the exemption letter does not exempt the individual from self-isolation, but allows the individual to travel to and from the venue to compete/officiate within the ten day isolation period. If an individual is staying for a period of time, they will need to conduct a PCR test on day two and day eight of their stay in the UK. The individual will need to provide proof of a negative Covid-19 test and complete a passenger locator form before departing the UK and follow any further rules imposed by the country to which he is travelling.

**Rider Briefings.** Rider briefings should be avoided where possible and information conveyed electronically / social media and by Final Instructions. However, it may be necessary to speak to all riders for a particular reason and if this is the case, then communications should be conveyed by the Venue Tannoy system / by loudspeaker or if neither of those are possible by organised groups of 30.

**Marshals.** Marshals should be given suitable PPE (face masks / gloves) which be utilised when dealing with an incident. Hand Sanitizers/hand gel to be made available at each Marshal point. Organisers should always ensure that Marshals are conscious of and satisfied with their own safety. As all Marshal activity takes place outdoors, the decision to wear face masks throughout the event should be a local / individual decision. Most of the Marshal demographic will now have received their first vaccine at least. Where possible social distancing (1 metre+) should be maintained and if this cannot be maintained then it is incumbent on each Marshal location or individual whether they wish to wear face coverings throughout the event.

**Medics.** As above with the Marshals, they will be required to be equipped with PPE (face masks / visors / gloves) to deal with any incident on track they may be called to attend. Individual Medic locations should follow their own risk assessment as to whether they wear face coverings throughout the event, bearing in mind the close proximity of individuals inside vehicles.

**On Track Activity.** Start Line Officials to acknowledge and where possible observe social distancing measures.

**Race Control Staff.** Race Control staff are to observe social distancing measures. Race Control to be well ventilated to allow for fresh air to circulate. Visitors to Race Control should be kept to a minimum or as required through operational necessity. Visitors to Race Control should wear face coverings and be required to sanitise hands before entry. The Clerk of the Course to make a decision locally on the wearing of face coverings for Race Control staff based on the size of the room, the ventilation of the room and the amount of people (to be kept to a minimum, but remain operationally effective) who will be in the room.

**Podium presentations.** Podium presentations may take place. All personnel are to observe social distancing measures, wear face coverings and social distancing measures to be observed. There is to be no hugging, no shaking of hands, no physical contact.

**Food Outlets.** In accordance with UK Government Advice/Guidance, Venue / Circuit owners may wish to make the necessary arrangements to safely operate on-site catering facilities. Likewise, Venue/Circuit Owners may want to invite external food outlets onto their premises. It is recommended that the Vendor provides a risk assessment to the Venue/Circuit Owner to demonstrate he is operating in accordance with up to date government regulations.

**Washroom / Toilets.** Signage should be displayed to emphasise control measures in place regarding washroom / toilet facilities.

**ACU Competition Licence.** Every rider wanting to compete in ACU permitted competition requires an annual ACU competition licence and as such needs to apply for a licence using the relevant ACU Competition licence form. For Road Racing, a competitor is required to undertake an eyesight test every three years. When completing the competition licence form, the rider must complete Section 3 – Medical Information. In this section, the rider should declare any ongoing medical issues. In doing so, the rider may well then be required to seek a Medical Report from a Doctor. Any competitor over the age of 70 needs to see a Doctor to obtain a Medical Report. In light of Covid-19, for the time-being and provided there is no change in medical circumstances, a medical report submitted in 2020 will remain extant for 2021. It is the responsibility of the rider to inform the ACU if there has been any change in medical circumstances and will be required to confirm there has been no change in medical circumstances before an ACU Licence is issued.

**Sidecar Crews.** Sidecar drivers and passengers can be parked adjacent to each other but must adhere to social distancing measures in place. Sidecar drivers and passengers must adhere to the rules surrounding the coming together of separate households / support bubbles.

**Use of Equipment / Tools.** Tools and other accessories should not be shared between individuals / teams / mechanics.
